

Profile:

Hello, my name is Miguel Marcos. I am a creative designer who is mainly interested in Advertising and Branding, but I also have an appreciation for many other

innovative art forms. I am skilled at creative design problem solving. I focus on analysing human behaviour and trends to come up with a design solution. I am of Lebanese origin, but I was

born and raised in Dubai and later moved to live in New York City, and Paris. All three cities are deeply international, and I have made sure to keep myself culturally exposed to many

different people. I am down-to-earth and friendly with all types of people. I am open to many different experiences and work well under pressure for long hours.
